The President's Report

fter a hectic August it all seems to have APSA Double Championship Shows were a great event with a superb entry - the biggest in NZ for a long time. Nearly all NZ kennels were represented and quite a few Aussie ones too. I managed to put some faces to names of folks up North, which was nice. It was also nice to catch up with Julie Oates (Elgianto) and John and Dawn Wilders (Snerzok). John and Dawn had kindly brought Hazel over to NZ and driven her from Wellington to Auckland. Shame about the car break in at Foxton beach but at least they got the money back this time.

It was nice to see folks who had travelled to support the APSA doing well with their dogs. On Saturday BIS was Ch Silvertips A Touch of Magic (Magic) owned by Lyn and Gary Carleton and RBIS was Kalaska Wild Excitement At Oscarbi (Indy) owned by judges. Hopefully next Helen Clark and Rob Barzey. Amazingly on Sunday Anita Andrew took out BIS with Ch Skrownek Sev Kazel (Kael) and RBIS with Ch Anaky Taking Chances

(Imp Aust) (Ali). This is the second time running at a Samoyed Specialty that gone quiet. The Anita has pulled this off with the same dog and bitch. I wonder if this is some kind of record. Camping on the grounds was great. The caretaker was most helpful and those yummy roast dinners sure bet takeaways. Reasonably fine weathers also helped heaps but it was very cold. I was frozen on Sunday.

> The following weekend saw the SCI open show. This was a much smaller event but still very enjoyable with a reasonable entry. Unfortunately when we arranged this event in conjunction with the Wellington Ladies Club as usual we did not know APSA were planning double championship shows the weekend before and some people had to make a choice between the events. Understandably they chose the championship shows with Samoyed breeders from the UK as year the Samoyed Specialty shows will be a bit more spread out to give us all something to look forward to through the year. It was nice that

Karen Kissell stayed up in Wellington for the week in between so she could go to both events.

As per usual the trophy table was excellent with sponsorship from Nutrience, My Beau and Friends Pet Clean Up Bags. Lorraine had worked hard to get useful prizes. It was just a shame she did not make it to the show herself and see it all laid out. The judge Bruce Anderson kindly donated \$50 for the raffle. Lauren and Noel stewarded and Paddy Watts supplied the judge's gift. Thanks committee and helpers every little bit of support helps. The judge is a German Shepherd breeder and he certainly gave everyone a good run for their money. The junior stakes was a real treat with Tayla Andrew and Miracle Hayward compet-

With Summer just around the corner please think about dogs getting too hot in cars and flea treatment. Next events for the Club are the Sammy walk and annual Snowdog match Samoyeds against Siberian Husky and Alaskan Malamutes. Details about these events are in the ads in this magazine and on the Club web page.

Bye for now.

Secretary's Report

Who invented school holidays? Where does one find the time to keep two children occupied as well as look after 4 dogs and work fulltime? The only good thing about it is I have extra hands when it comes to taking the dogs for a walk. Only another week and they will be back at school and peace will reign once again phew!

We had our Open Show on August 20th in conjunction with Wellington Ladies Kennel Association. Although it was a relatively low entry, we still had fun with our Judge Bruce Anderson. Congratulations to Lynne Barr and Ch Angara Taiza Tale for their Best In Show win. Thank you to all the sponsors of our classes. And once again Lorraine, our Trophy Steward out-did herself with those great prizes.

Please remember to collect bar codes of dry dog food you are using. We are especially after Nutro and Nutrience bar codes. Please send them to Lorraine. Don't forget to send me those Group/In Show wins of your dogs. I do get most wins from results posted on AN-ZSAMS but I am only human and may miss one or two here and there. The only way to ensure they are included is for the winners to email them to me.

The Samoyed Club Inc Championship show by Helen Hill Mezen, Australia

Firstly I would like to thank the Club for inviting me to judge at the show. I always take it as an honour to judge my breed and I know the hard work that goes into preparing them for the show.

I would like to thank the exhibitors for the manner in which they accepted my decisions.

Overall I saw some lovely heads and type but there is room for improvement. I feel that if we want to have our breed judged as a working dog we should make sure they are fit and muscled. I saw a couple of bites that concerned me so keep an eye on these. I was pleased to find nearly all the dogs had correct feet.

Unfortunately many of the bitches were not in good coat and I felt the dogs overall were better than the bitches and as the bitches are the strength of the breed it was a little bit disappointing. I know that the breeders in New Zealand are working hard and bringing in new lines so that is a very positive outlook for the breeds' future.

Championship Show

6 June 2005

Puppy Dog:

One only in class. 10mths old.

Kursharn Kaze Zhadan

Well up to size. Pleasing head. Heavy in coat. Moved and showed well.

Junior Dog

Two in the class, both very nice dogs.

1. Silvertips Destind To B Witch

Medium sized dog. Lovely type. Compact body. Beautiful head & expression, correct ear and lovely dark eye. Good angulation front and back. Not in full coat but correct texture. Excellent tail set. Moved true coming and going.

2. Zaminka Flashlight.

Bigger than first dog. Very sound masculine young dog. Carried profuse coat. Pleasing head and expression, moved very well. Close decision between these two

Intermediate Dog.

One only exhibited.

Kimchatka The Patriot

Good type, compact body, good harsh coat, pleasant head and expression Moved well

Limit Dog.

1. Jaden-star of Karmera

Quite a large dog. Overweight. Good type nice head and expression. Good harsh coat. Would like to see more neck to give elegance. Moved reasonably well but not performing at his best for his handler.

2. Kursharn Sev Armmon

3. Kelljass White-Devil-In-Lace

Unfortunately the gremlins got into my notes here and I do not seem to have them.

My apologies to the owners of these dogs.

New Zealand Bred (3)

1.Ch Skrowneck Sev Kazan

Lovely type strong masculine dog . Lovely outline. Very good head and expression. In lovely bloom. Moved well side on and going but a little over developed in the chest which let him down on his front movement. Showed very well. Reserve dog.

2. Ch Zaminka Back to the Future

Very well presented. A little too heavy and soft in coat which spoiled his outline. Pleasing head and expression. Correct feet and good bone Moved well

3. Silvertips Cosmic Storm

Lovely head and expression. Good bone. Masculine dog in good coat, showed well but did not move as well as first two.

Veteran lovely class

1. Ch Karmera Maximaster at Yorkrose

Good type, nice head and expression. Correct feet and good bone, would prefer a little more neck.

2. Ch Samways Coolascanbe

Showing his age. Good size, correct feet and good bone.

3. Ch Angara Kinda Windy

A little large for me but another lovely veteran.

Open Dog

1. Sivertips a Dream of Destiny

Up to size, very masculine dog with a lovely outline. Pleasing head and expression. Good reach of neck which gave elegance to his strength. Not in full coat but of good quality. Correct feet and good bone, moved true. CC and best in show.

2. Aust Ch Anaky Its Party time (Imp Aust)

Good type and outline. In good correct coat. Pleasing head and expression, moved well but I would like a little more length of leg.

3. NZ/Aust/Sgpore Ch Kimchatka the Real Mccoy

A smaller dog. Compact outline. Pleasing head and expression, good bone. Did not move as well as I would have liked due to being compact in the body.

Baby puppy bitch (3)

1. Samloch Sunlit Silvamist (Imp Aust) 4 months

A real little showgirl. Pretty head and expression. Good reach of neck. Good eye and ear. Lovely outline. Moved like a little trooper. Would prefer just a little more substance but she is only a baby.

2. Kamera Gleaming star at Amarok 5 months

Another nice baby, nice head and expression but a slightly bigger ear and a little longer in loin. Good tail. Moved and showed well.

3 . Kelljass Imperial Lace Nearly 6 months

Going through the gangly stage moved OK would like to see the tail settle.

Puppy Bitch

1. Kalaska Wild Excitement at Oscarbi (Imp Aust)

Well developed young lady, very well presented. Nice head and expression. Good thick coat. Good bone moved well and showed well.

2. Sunshine Paint me Suzannna

Another nice puppy. Nice head and expression. Good bone and feet. Moved well.

Junior Bitch

1. Kelljass Antique Chyna Doll

Good head and expression. Correct front angulation. Correct feet. Moved well.

2. Ch Anaky Taking Chances (Imp Aust.)

Not much to separate 1 & 2 Good outline also had lovely feet, moved well just preferred front on first bitch.

3. Admia Little Miss Alpha

Lovely biscuit shading, more good feet, good shape out moved by 1 & 2.

Critique continued

Intermediate Bitch

1. Ch Wytekloud Ambers-Burn-For-Eva

Lovely type. Nice head and expression, good eye and pigment. Correct size, good feet, moved well.

2. Ch Kimchatka Sweet As

Nice type. Good head and expression. More compact than 1, not as free moving.

3. Ch Kursharn Zeta Shonvee

Good type, slightly larger eye than I like. Good feet.

Limit Bitch

1. Sunshine Paint Me Gold

Nice shape. Pleasant head but slightly larger ear. Good feet, nice biscuit shaded coat. Moved well.

2. Sunshine Hug a Meecha

Quite unsettled today. Nice head, slightly larger eye.

New Zealand Bred

1. Ch Kelljass Arctic Snow Dream

Nice reach of neck. In good coat.

Good head and expression lovely feet. Moved well RCC.

Lovely type and outline.

2. Skrownek Taan Tavia

Taller and leggy but very sound. Plain head.

3. Ch Wytekloud More-Than-A-Mist

7 year old. Narrow through plain head.

Veteran

1. Ch Sunshine On My Shoulder At Yorkrose

12 years and carrying them well. Lovely type, moved true for her age.

2. Ch Sunshine Karli

Another nice one 9 years, very fit, preferred head on 1.

Open Bitch

Only one exhibited but a good one.

1. Ch Zaminka Still A Kid At Heart

Correct size. Lovely outline. Lovely head and expression with good ear and eye. Correct feet. In good coat moved and showed well. CC and Reserve in Show.

Close call with Roosay

A few months back we nearly lost Roosay to stomach torsion. Roosay is 13 years old so not the young bitch some of you may remember. She ate her tea as normal and then straight after finishing went outside. Once outside she started crying in pain, biting her stomach, and trying to toilet. She went from being a happy dog to a one in great pain within minutes. Fortunately I had heard the story about someone else's dog that had got bloat and I was worried it may be the same thing so Roosay was quickly bundled up

in the car and taken to the emergency vet.

Even though Roosay was at the emergency vet very quickly it took some time once we got her there to confirm the stomach torsion. The initial thinking by the vet was that she had pancreatitise. As Roosay is not fed dry food her stomach did not blow up like a drum, which is the classic sign of torsion the vet had been used to seeing. She also failed the other sign the vet was used to seeing - gas bubbling out when her stomach was stabbed. The only thing that supported my thinking that it was bloat was that when the vet tried to empty her stomach she could not get the rubber tube into Roosay's stomach. The other possibility was that she had something stuck in her throat.

> Fortunately given the uncertainty about what was wrong with Roosay the vet decided to prepare her for surgery and Roosay was put on support drugs and morphine. Despite the morphine she remained in pain even when the level was ramped up. After an x-ray it was very clear her stomach was being to extend and she needed to be opened up to try and save her life there and then.

Even though Roosay is an old granny she is very healthy and survived the operation. It was a very worrying and sleepless night. In the morning she was transferred to her normal vet. When the vet operated she sewed Roosay's stomach to the side wall to prevent any further twisting. At the vets she recovered quickly in the first few days but unfortunately when she was taken off the pain relief and support drugs she went downhill very fast and we thought once again we were going to lose her. After being back on the drugs again for a few days she was taken off them again. It is important to get the stomach working again as quickly as possible.

The second time she was much stronger and after a few more nights at the vet finally got to come home. Roosay was at the vets for a full week and really pleased to come home. Once home she just slept and slept. I actually think she was very depressed at the vets so getting her home was important to her ongoing recovery. All the vets were great and so pleased that Roosay pulled thru as they had a dog in with the same thing the week

before that had not recovered. Roosay had to have regular checks up for the next month as the toxins can build up and cause a massive heart attack within this period. Roosay is now back to her old self the only tell tale sign being her Poodle appearance. She had her front legs and all of her tummy shaved.

So if your dog ever suddenly gets pain in its stomach please take it to the vet ASAP. The vet said if we had left taking Roosay to the vet in the morning she would have definitely died.

"Roosay was quickly bundled up in the car and taken to the emergency vet."

WHAT TO DO IN AN EMERGENCY!

Check your dog's mucus membrane colour (gums, inside cheeks). They should be light pink, moist and when pressed on return to their original colour unless then 2 seconds. If they are pale, white, blue or yellow and do not return to that colour within 2 secs then veterinary attention is required

Vital Statistics: Pulse and Heart Rate

Normal resting rates:

Small dogs: 90-120 bpm

Medium dogs: 70-110 bpm

Large dogs: 60-90 bpm

Pulse should be strong, regular and easy to locate.

Checking the pulse

The easiest place to locate a pulse is the femoral artery in the groin area. Place your fingers on the inside of the hind leg and slide your hand upward until the back of your fingers touches the abdomen. Gently move your fingers back and forth on the inside of the hind leg until you feel the pulsing blood. Count the number of pulses in 15 seconds and multiply that number by 4. This will give you the beats per minute (bpm).

Temperature

Normal temp. for dogs: 37.8 - 39.1 deg C (100-102.5 deg F)

Thermometer should be almost clean when removed.

Abnormalities are indicated by blood, diarrhoea, or black, tarry stool.

Basic First Aid Procedures

All of the following situations require immediate veterinary care:

For Fractures

Muzzle animal.

Gently lay animal on a board, wooden door, tarp, etc. padded with blankets.

Secure animal to the support.

Do not attempt to set the fracture.

If a limb is broken, wrap the leg in cotton padding, then wrap with a magazine, rolled newspaper, towel or two sticks. Splint should extend one joint above the fracture and one joint below. Secure with tape. Make sure wrap does not constrict blood flow.

If the spine, ribs, hip, etc. appears injured or broken, gently place the animal on the stretcher and immobilize it if possible.

If Bleeding (external)

If an open wound is bleeding, the first priority is to control it. Before attempting to do anything, be sure the animal is properly restrained and, if necessary, apply a muzzle. To stop bleeding, apply direct pressure to the wound using a sterile or clean gauze sponge or cloth. When applying pressure, do not

keep lifting the gauze to see if the bleeding has

stopped. This only disrupts the clot that may have formed. Likewise, if blood soaks through the gauze, do not discard the soaked bandage since it contains important clotting factors. Instead, keep adding more

bandage material on top of the soaked bandage. If possible, elevate the wound.

For severe bleeding, it may be necessary to apply direct pressure to the arteries that supply the affected area. These pressure points are located at the upper inside (armpit) of the front legs, the upper inside of the hind legs and the underside of the tail. The use of a tourniquet should be avoided. However, if a tourniquet is to be used, it must be used only as a last resort and then only if it is loosened every few minutes to restore blood circulation.

Muzzle animal.

Press thick gauze pad over wound. Hold firmly until clotting occurs.

"It is wise to
have all bite
wounds
examined by a
veterinarian, no
matter how
minor they

appear."

Quickly apply ice water comresses.

Treat or shock if necessary.

Shock

Symptoms: weak pulse; shallow breathing; nervousness; dazed appearance. Often accompanies severe injury or extreme fright. Keep animal restrained, quiet and warm. If unconscious, keep head level with rest of body.

Restraint Methods

If bleeding is severe, apply a tourniquet between the wound and the heart. Loosen tourniquet for 20 seconds every 15-20 minutes. A tourniquet is dangerous and should only be used in life-threatening haemorrhaging of a limb. It may result in amputation or disability of the limb.

If Bleeding (internal)

Symptoms: bleeding from nose, mouth, rectum; coughing blood; blood in urine; pale gums; collapse; rapid or weak pulse.

Keep animal as warm and quiet as possible.

Burns

Chemical

Muzzle animal.

Flush immediately with large quantities of cold water.

Severe

Muzzle animal.

If your animal is injured, you must restrain him/her for your safety as well as your pet's. Muzzle your pet to restrain it unless it is unconscious, has difficulty breathing or has a mouth injury.

Dogs - Muzzles

Speak and move calmly and quietly.

Have someone restrain the dog with a leash.

Approach dog from the side and behind its head; do not attempt to put muzzle on from the front. Quickly slip a nylon or wire cage muzzle over nose, secure snugly behind ears.

If a muzzle is not available, you can make one from a strip of gauze, rag, necktie, belt or rope about 3 feet long. Make a large loop in the centre. Quickly slip loop over dog's nose. Bring ends under chin. Tie snugly behind ears.

Prevent wound contamination

A clean, protective dressing should be applied to open wounds whenever possible to prevent infection and contamination. Never use cotton batting directly on an open wound, since the fibres will contaminate the wound.

If the wound is minor and superficial, gently cleanse it with ordinary soap and water. Try to clip back the hairs with a pair of scissors, being careful not to cut the skin accidentally. Apply an antiseptic or antibiotic ointment, followed by a snug dressing. Be careful not to restrict the circulation by making the bandage too tight. If a wound is major and deep, do not probe or clean it, but simply apply a dressing and contact your veterinarian. As a rule, cats and dogs do not require tetanus shots.

For bite wounds, clip back the hairs away from the puncture sites with scissors and then thoroughly wash the wound with copious amounts of soap and water. Three per cent hydrogen peroxide may also be used after washing.

It is wise to have all bite wounds examined by a veterinarian, no matter how minor they appear. Very often, there may be more extensive damage to the tissues under the skin that is not immediately evident. Most, if not all, pets with open wounds and bite wounds also require antibiotics to prevent infection.

FACT:

The Samoyed Club was incorporated 20 September 1956. The club however had been running for some time before it was incorporated.

The Golden Jubilee committee thought that the establishment date was 1949. The Club is the oldest Samoyed Club in New Zealand
